Director's Report to the Members

The directors are pleased to present to you the un-audited financial statements of JS Global Capital Limited (the "Company") for the three months period ended September 30, 2009 together with the comparative figures for the corresponding period of the last year.

ECONOMIC REVIEW

In its annual outlook, the IMF expects the global economy to sustain its economic recovery, forecasting a global GDP growth of 3% in 2010, after contracting by about 1 percent in 2009. Most macro-economic data coming out of Pakistan ranging from domestic consumption to investments is still pointing towards weak economic growth in FY10 and beyond. This will probably undermine the financial sector's asset quality recovery and in turn will apply a bit of downward pressure to the capital market recovery, in our view.

Due to subdued domestic demand, and the relative inability of our economy to withstand supply-side shocks like high commodity prices, slow down in foreign and domestic investments and unchecked inflation; Pakistan will continue to remain dependent on an IMF program. Even though the IMF led program helped Pakistan to meet its foreign debt and import obligations during the last fiscal year it will inevitably prevent the economy from achieving a growth of greater than 2-3 % due to stringent and tight monetary and fiscal policy and controls.

THE STOCK MARKET REVIEW

Once the threat of default in the International debt markets was averted and with the shoring up of Pakistan's foreign currency reserves due to the assistance of an IMF led program and the quarter on quarter improvement in macro-economic indicators, the stock market began to witness a substantial recovery. From the time it touched the trough level of 4800 points in January 2009 the KSE 100 is up 94%. The outgoing quarter alone has provided a return of 30.5% with an average trading volume of 189 million shares a day. The KSE attracted US\$ 269 million in foreign investment since July 2009 once it became clear that the discount the KSE-100 was trading at as compared to its regional peers was unjustified. Historically, the KSE-100 has traded at a 30% discount to it's more stable regional peers, however, prior to the inflow of the IMF funds the KSE-100 was trading at a discount in excess of 50% to its peers. This gap continues to narrow. However, question marks on the Country's law & order situation, timing of flows from Friends of Pakistan and the unrelenting power crisis have begun to put a check on the market performance off late. We have no illusions about the fact that the upward journey towards the realization of the above mentioned historical discount will be volatile with many corrections, brought about due to swings in investor confidence especially because of the precarious law and order situation.

OPERATING PERFORMANCE

Our Company has reported a profit before tax of Rs. 212.067 million and profit after tax of Rs. 165.279 million for the three months as compared to profit before tax of Rs. 78.237 million and profit after tax of Rs. 68.732 million for the same period last year showing an increase of 171% & 140% respectively. Earnings per share for the three month period was Rs. 3.31 per share as compared to Rs. 1.37 per share for the same period last year.

Quarterly Report 2009

It is important to note that the total gross revenue for the three month period was higher by 49.55% as compared to same period last year. Despite the challenges being faced by the Country and the Capital Markets, our Company plans on maintaining its focus on institution building by further strengthening its core business units, increasing market share in all departments and constantly remaining in search of innovative financial products and services.

FUTURE OUTLOOK

With the strength that our balance sheet and reserves have to offer and our constant desire to achieve organic and steady growth we will continue to strengthen and improve our services as well as create new financial products and services. In-spite of the numerous challenges being faced by the country and economy we are confident that the company will maintain its growth momentum in the long run and continue to build shareholder value as it always has in the past.

ACKNOWLEDGEMENT

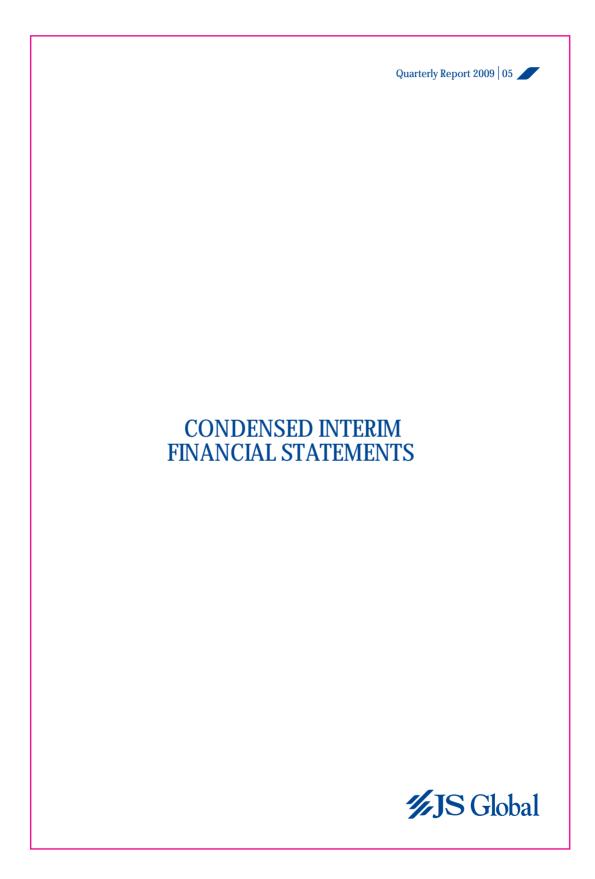

The directors are grateful to the Company's clients and business partners for their faith and support, the employees for their dedication and hard work and the SECP and Karachi Stock Exchange for their efforts to strengthen the capital markets.

On behalf of the Board

Karachi: October 26, 2009

Adil Matcheswala Chairman

12 Quarterly Report 2009

Notes to the Condensed Interim Financial Statements (Unaudited) For the three months period ended 30 September 2009

1 THE COMPANY AND ITS OPERATIONS

JS Global Capital Limited is a corporate member of Karachi Stock Exchange (Guarantee) Limited. The principal activities of the Company are share brokerage, money market and forex brokerage, advisory and consultancy services. Other activities include investment in a mix of listed and unlisted equity and debt securities and reverse repurchase / continuous funding system transactions. The registered office of the Company is situated in Karachi, Sindh.

2 BASIS OF PREPARATION

These condensed interim financial statements have been presented in condense form in accordance with the requirements of International Accounting Standard (IAS)-34 " Interim Financial Reporting " as applicable in Pakistan. These condensed interim financial statements do not include all of the information required of full annual financial statements and should be read in conjunction with the financial statements of the Company for the year ended 30 June 2009.

These financial statements are un-audited and are being submitted to the shareholders in accordance with the requirements of section 245 of the Companies Ordinance, 1984. These condensed interim financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency and rounded off to the nearest rupee.

The Company, during the period, has adopted Revised IAS 1 - Presentation of financial statements (effective for annual periods beginning on or after 1 January 2009) introduces the term total comprehensive income, which represents changes in equity during a period other than those changes resulting from transactions with owners in their capacity as owners. Total comprehensive income may be presented in either a single statement of comprehensive income (effectively combining both the income statement and all non-owner changes in equity in a single statement), or in an income statement and a separate statement of comprehensive income. Accordingly, Company has presented two statements; a condensed interim profit and loss account and condensed interim statement of comprehensive income.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICY

The accounting policies applied for the preparation of these condensed interim financial statements are the same as those applied in the preparation of the annual audited financial statements for the year ended 30 June 2009.

4 ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of condensed interim financial statements in conformity with approved accounting standards requires management to make estimates, assumptions and use judgements that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revision to accounting estimates are recognized prospectively commencing from the period of revision. In preparing these condensed interim financial statements, the significant judgements made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 30 June, 2009.
